

First Nations Health Authority (FNHA) clients can receive nasal naloxone (NARCAN® Nasal Spray) at no cost and without a prescription by presenting your Status Number and Personal Health Number.

NARCAN® Nasal Spray is used to treat someone who has overdosed on opioids. It can be used by anyone to reverse the effects of the overdose until medical help arrives.

Always read the label and follow the directions for use.

For more information about NARCAN® Nasal Spray, visit narcannasalspray.ca.

3 Once you've completed this request, please offer training and counselling in a private setting.

3 STEPS to respond to an opioid poisoning

1

**Identify opioid poisoning
and call for emergency
medical help.**

2

**Give 1 spray of
NARCAN® Nasal Spray
into nostril.**

3

Evaluate and support.
Give a second dose after 2 to
3 minutes if the person has not
awakened or their breathing has not
improved. **Alternate nostrils.**

Always read the NARCAN® Nasal Spray label and follow its instructions for use.

Please consult the Patient Medication Information at narcannasalspray.ca/PM/NNS_PMI_EN.pdf for this information, as well as for warnings, precautions, adverse reactions, dosing guidelines, and conditions and limitations of clinical use.
